

ENTERO2024

Enabling New Treatments, Education, Research and Outreach

PORTO, PORTUGAL • 14-15 NOVEMBER 2024

CONFERENCE AGENDA

Digestive Cancers Europe and EuropaColon Portugal warmly welcome you to ENTERO 2024

Co-funded by the European Union, ENTERO stands for Enabling New Treatments, Education, Research, and Outreach for early-age onset digestive cancers. Young patients with early-age onset digestive cancers face unique challenges that demand urgent attention, from improved diagnosis and HCP awareness to specialised support post-treatment and considerations in fertility and mental health.

ENTERO 2024, a first-of-its-kind conference on early-onset digestive cancers, aims to increase awareness among all stakeholders to ensure that early-onset patients' care and survivors receive the comprehensive care and improved outcomes they deserve.
